	The chairman opened this agenda item to the public for discussion. Clerk contacted ERYC regarding leasing the flashing speed signs (that were recently in Burton Pidsea), as always it's not that simple. There is a process to go through with Traffic Management and we must be referred on to be able to access the signs. Possibly the data from the traffic survey may do this, though its not clear. Cllr. Waddingham stated that there are multiple issues in the village including lack of safety infrastructure outside the school, poor road markings, the bad state of the road surface and speeding traffic and is frustrated that nothing seems to be getting done about these issues. As stated previously the parish council can't do much until they receive the data from the recent traffic survey. Cllr. James said that there are actions in the pipeline including: Community speedwatch – the aim is to get the training booked towards the end of October to get this up and running Resurfacing of Main Street that is due to take place from 11 th – 29 th October. As previously agreed, Cllr. James to chase up the 20 mph lights that need re-setting and will also chase ERYC regarding the traffic survey results. Once the survey results have been received Cllr. James suggested holding a special meeting in the village to discuss the results and next steps, but the parish council must have the support of the village, everyone must come together as one voice.
